The publishers will not hold themselves responsible for any error that may occur beyond the amount charged for the advertisement

Mr. Elisha Field, Boston is agent for these papers. Advertisements left with him will be immediately forwarded.

CONSUMPTION CURED!

CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

READ! READ!!

This medicine is just what it is declared to be above. A remedy for the *complete cure* of all those affections of the Throat and Lungs which it neglected, always end in CONSUMPTION. It is not a nostrum, *catch penny article*, made just to *sell* like many of the common nostrums of the day but it is a strictly *scientific Preparation*—the original recipe having been furnished by an eminent Physician (the late Prof. Rogers) and that still further improved by one of the present proprietors, who is himself a *regularly educated Physician*, a graduate of the University of Pennsylvania. It is composed of the choicest articles in the vegetable kingdom, most of them of long tried value and established reputation and some of them *entirely new* particularly the CANCHALAGUA, a plant of *most wonderful medicinal virtues*, lately introduced into this country from California. The Recipe has been shown to thousands of Physicians who have universally approved of it, and will be shown to any Physician who desires to see it upon application either to the Proprietors or their Agents. It has been used in *multitudes of cases* and is strongly recommended by *Physicians*, even *Professors* in our Medical Colleges, Ministers of the Gospel, Judges, Lawyers, Merchants, Mechanics &c.—a conclusive proof that there is no *quackery or deception* about it, but that it is a medicine of most uncommon virtue and efficacy.

PAMPHLETS.

As no ordinary sized advertisement can *begin* to do justice to the merits of this article, the Proprietors have embodied in a pamphlet form the *history* of this Medicine—the *description, nature*, &c. of its principal ingredients—the *effect* they are designed to have upon the human system—and above all the *incalculable amount of good* which it has done. They design to circulate this pamphlet extensively but should any one be overlooked they are earnestly desired to call upon the Agent named below, and procure one *gratis*. The *hints* on page 7 may be worth to yourself or family THOUSANDS OF DOLLARS and it will introduce you to a mass of testimony in its favor, which is perfectly irresistible.

Such being our confidence in its virtues, we are willing to *warrant* the Medicine *in every recent case*, (if used according to the directions) and where the person is not satisfied that he is not deriving benefit from it by returning the bottle within 24 hours' time,

THE MONEY

will be refunded. ☞See page 3d of the Pamphlet

For sale wholesale and retail by A. L. SCOVILL & CO, Proprietors at their *Principal Office* No. 6 Warren St, New York to whom all orders for the Medicine and letters relating to agencies, should be addressed *post paid*.

☞Be sure to ask for *Dr. A. Roger's Syrup of* LIVERWORT TAR and CANCHALAGUA, and let no other be palmed on to you.

Caution.—None genuine unless there is on the buff wrapper a *note of hand* signed with a *Pen* by A. L. SCOVILL & CO.

For sale in Bangor, by LADD & INGRAHAM. Also—for sale by G. McFARLAND, SARGENT & EMERSON, H. B. HALL, Bangor, Horace Bunker Orono, R. P. Kendell, Oldtown, A. J. French Dexter.

Wilder's Patent

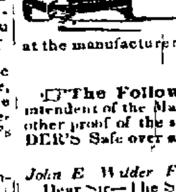
SALAMANDER SAFES

90 STATE STREET, CORNER OF MERCHANTS' ROW

Secured against Gunpowder

....AND....

WARRANTED NOT TO INJURE BOOKS OR PAPERS BY DAMPNESS.



THESE are the *only Safes* WILDER'S PATENT) that have in every instance preserved their contents when exposed to large fires, like the burning of the Tribune printing office in New York city, and many others, too numerous to mention.

The above Safes are manufactured and for sale by JOHN E WILDER, Boston and for sale in Bangor at the manufacturers prices, by FISKE & DALE

☞The Following Letter from the Superintendent of the Maine Telegraph Company is another proof of the superiority of JOHN E. WILDER'S Safe over all others —

BANGOR, Oct 24, 1849

John E. Wilder Esq —

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours. The books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours, JAS EDDY.

Another Life Saved.

Read the following letter from a Clergyman of Camden Me, to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR,—A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring, I received very great benefit from the use of N. H. DOWN'S ELIXIR.

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office. My cold continued until I was completely prostrated by bleeding which created a dry, hard cough. My appetite failed my strength wasted and my flesh disappeared. Seeing Wistar's Balsam of Wild Cherry recommended in the Banner I procured a bottle and commenced taking it, and continued its use until I had taken three bottles when I became satisfied that it contained opium, making a large amount of physic necessary, and also contracting the very organs that should be relaxed. I used other kinds of patent medicines but with no good effect. Seven weeks I continued gradually to sink under my disease ... expiration of which time, I was extremely weak, my skin dry and husky and my feet and hands cold most of the time. I had a dull, heavy pain between my shoulders and a distressing pain at the pit of my stomach. My tongue was coated with a thick, white fur, bowels very irregular and costive, hectic fever, night sweats, dry, hard cough, difficulty of breathing and low appetite. My stomach was weak and it was with difficulty I could sit in erect. This was my situation when I commenced the use of N H DOWN'S ELIXIR — and to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin. I used three bottles in two weeks, which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength. I continued its use six weeks, using six bottles in which time I was able to resume my ministerial labors. I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed.

I have given it to my children in colds, and in a case of measles, and it has proved ALL it is recommended to be.

I therefore cheerfully recommend N. H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended. Yours truly, J. L. LYTLE.

Camden, August, 1849

Facts deduced from the foregoing letter —

1st Down's Elixir is laxative—curing costiveness while other medicine increases that difficulty

2d It is perspirutant. It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system

4th It cures colds—is an effectual remedy for the measles, and proves ALL IT IS RECOMMENDED TO BE."

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE, G W LADD, CURTIS & PERKINS, A P GUILD, WM MANN, G McFARLAND Bangor; L. S Smith J W Curtis & Co Hampden; Chas Johnson, J B Chick, Frankfort; H P Fifield Bucksport, J Hooper, Jr, S P Hatch & Co, Castine, R Nourse Geo Patcher, Ellsworth, E P Butler & Co Orono, E & R Fisk, H & J F Richardson, Oldtown, Wm O Poor, Belfast, Chas A. Macomber, R F Slocomb, East Thomaston.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With U. S. Patent Office

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office *whereby a Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims*. The experience of sixteen years practice, an extensive collection of rare works, decisions &c on mechanic subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21 1849.—During the time I occupied the office of Commissioner of Patents R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

Aug 7, 1849. 1Sep 1850

THE VEGETABLE PULMONARY BALSAM

Is the Most Highly Approved and Popular Standard Medicine now in General Use for

COUGHS, COLDS AND CONSUMPTIONS *Asthma, Pleurisy, Phthisic, Spitting of Blood, Hooping Cough, Bronchitis*, and all Pulmonary Affections, and Diseases of the Lungs and Chest.

It is thus spoken of by eminent Physicians. One says—"For the above complaints it is superior to any other preparation used." Another—"It has been used with *wonderful success*, and has a superiority over every kind of medicine tried." Another—"I can with *confidence* recommend it." Another—"It has been used with complete success, and I am *satisfied* that it is a *valuable medicine*." Another—"It is a *safe, convenient*, and very *efficacious* medicine."—Another—"It has never, to my knowledge, disappointed the reasonable expectations of those who have used it." Another—"It is equal if not superior to any other medicine within my knowledge."

Extract from a letter dated Dayton, Ill., April 13, 1849.—"It was first introduced into my family by a celebrated Physician, some ten years ago, and such was the benefit my wife derived from it that we have not been without it in our house since. I have also recommended it to at least fifty different persons since, for Affections of the Lungs, and I do not know of a single case in which it did not give immediate relief, and some were cured after being given up by their Physicians."

☞BEWARE OF COUNTERFEITS AND IMITATIONS such as CARTER'S COMPOUND PULMONARY BALSAM, AMERICAN PULMONARY BALSAM, and others, in part, bearing the name! Enquire for the article by its whole name, the

"VEGETABLE PULMONARY BALSAM" and see that it has the written signature of Wm Jno'n CUTLER upon a yellow label, on the blue wrapper. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

Prepared by REED & CUTLER Importers and Wholesale Dealers in Medicines, Paints Chemicals, and Dye Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries, and Country Merchants generally. For particulars and recommendations see a Pamphlet accompanying each bottle. Price 50 cents.

GREAT IMPROVEMENT IN

Planing, Tongueing, and Grooving Lumber.

JOSEPH P. WOODBURY'S

Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same. This machine will plane 6,000 feet of boards to any uniform thickness in one hour producing a better finished surface than it is possible to plane by any other means now known, not excepting the hand plane, and is peculiarly adapted to plane and joint clapboards, or weather boarding and will do the work faster and better than any machine heretofore invented. This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material, and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder now in common use. The construction and organization of this machine is different from any other now in use. Communications for further particulars cheerfully responded to by addressing the subscriber (post paid,) Boston, Mass

One of the above Planing Machines may be seen in operation by calling on the Patentee

Abdominal Supporter.

☞WILSON'S IMPROVED PATENT.

THE subscriber, having purchased the right of selling the above instrument for the County of Penobscot hereby cautions all persons against selling any other supporter in general and *Fitch's in particular*, being an infringement on Wilson's Patent granted May 26 1843 for twenty years, *and a reward of ten dollars* will be paid to any person who will furnish sufficient evidence to sustain an action of trespass against the above right after this date.

This improved Supporter has but recently been fairly before the public. The right for selling it is offered on condition that in case it is not what it purports to be the purchase money will be refunded. In Constipation of the Bowels, Prolapsus, Uteri, "Falling or bearing down" of the Womb, Fluor Albus Sinking at the Stomach Weakness, and Pains in the Side and Small of the Back, there is probably not a more effective remedy.

This Supporter should and doubtless will, be in the hands of every scientific Surgeon and Physician. It is a mechanical aid and will perform that which medicine fails to achieve.

The attention of Physicians and Surgeons throughout this county is invited to the above instrument and rights will be sold to towns and ... and Supporters furnished on the most reasonable terms. For a single Truss price $6 00

Physicians in the country may ... *post paid* giving the number of towns and ... for which they wish to purchase the right and terms will be promptly given and a Supporter sent as a sample, if requested, *for examination*

ALSO,

SHOULDER BRACES,

DOUBLE AND SINGLE TRUSSES,

of the most popular ... at the lowest prices by WM MANN. ... 1wd&eow3m

Daily and Courier.

John S. Sayward.—Editor.

SATURDAY, FEBRUARY 23, 1850.

☞ The House of Representatives at Washington was engaged all day on Monday until after twelve o'clock at night in the opening of the revolutionary campaign threatened by the extreme men of the South

Mr Doty, of Wisconsin, introduced a resolution instructing the proper committee to report a bill for the admission of California, with the constitution and boundaries adopted by her people

Mr Inge moved to lay the resolution on the table Mr Kaufman raised a question of order on the resolution Questions of adjournment calling the yeas and nays with all sorts of incidental matters were introduced for the purpose of killing time until past twelve o clock at night when the resolution went over to take place on the calender

This staving off results by killing time through the introduction of incidental matters to keep the machinery of legislation in motion, may seem very pretty to the actors at the time, but they should remember that it is a game which two can play at and that it may return at some future time to plague the inventors

We notice that some of the Washington letter writers are filled with alarm on account of the factious proceedings o the House It is said now that Mr Webster has a plan to propose which will be satisfac ory to the better portion of the South, but it is feared that it may not pass the House since it has commenced upon the plan of defeating business by calls for yeas and nays and adjournment. It is quite certain now that with the present tactics of the House no proposition to admit California can be passed at the present session Time, however, may cause members to be both wiser and cooler and all the wiser for being cooler

☞ The following is an extract from a letter of one of our citizens now on a visit to Washington It will be read with pleasure by many of our readers for its own sake, which pleasure would be greatly heightened, with not a few did they know whose pen traced the lines —"You have of course, seen Mr Clay s Compromise Resolutions I heard him speak on them a week ago last Tuesday He is getting old, but he is still a great man and a great orator, his noble form is still straight, erect, elegant, his action unconstrained and graceful, his incomparable voice still silvery, clarion like, flexible, and of great compass His low deep tones are sometimes glorious There are occasional indications however in his speaking, that age, with its muscular weakness, is making inroads upon him. Whatever may be thought of his resolutions (and they seem not to be gaining much favor from Southern members) the desire for harmony and conciliation which beyond all question has prompted this effort on his part, cannot be too much admired.

God save our beloved country from the horrors which appear to be hovering like a rain-charged cloud over her! Our national as well as our individual sins, do unquestionably cry for a recompense, but it is to be hoped that the prayers of the elect, who *ought* at this juncture to cry day and night unto God, and the patriotic efforts of conservative men of all parties and all sections, will avert the dreaded catastrophe

☞ The Kennebec Journal says that the great controversy in Bangor is whether the lady of the publisher of the Democrat actually succeeded in her attempt to horsewhip the editor of the Jeffersonian

The matter can hardly be considered much of a controversy, since, upon the affirmative, we have the positive statement of the Lady who horsewhipped the youngster of the Jeffersonian for his impudence in evading her domestic sanctuary by his slanders the testimony of an eyewitness who stood within four feet of the editor when the lady horsewhipped him, the declaration of the editor of the Mercury of his belief in the fact that the editor of the Jeffersonian was horsewhipped by a lady, the statement of the editor of the Advertiser that at least and remotest, for all practical purposes the editor of the Jeffersonian evidently got a skinning the personal statement of the publisher of the Democrat that his wife horsewhipped the editor of the Jeffersonian and the statement of the Whig in the entire belief of the fact that the lady succeeded in horsewhipping the editor of the Jeffersonian So much and that much on the affirmative

On the negative there is the denial of the editor of the Jeffersonian that the lady who attempted to horsewhip him succeeded in getting the lash on him

If this is an unsettled controversy anywhere it is not one among the editors of this city

☞ The Skowhegan Press states that two young men, named Haskell and Jackson, belonging to the town of Jefferson, in this state, were arrested in Skowhegan charged with passing counterfeit money Bills to the amount of some $40 were found, either in their possession, or where they had been secreted by them There were $3 bills upon the Worcester Bank $1 s upon the State Bank, and a few upon one other bank, name not mentioned

The younger pleaded guilty, and were bound over and ordered to be committed, but one of them effected his escape from the officer, who had him in charge at Augusta.

☞ We learn from the Waterville Mail that an Engineer, Mr Clark has commenced the survey of the Northern route of a railroad from Waterville to Oldtown He commenced last week at Fairfield and will continue the survey through the lower part of Bloomfield, and so on, passing through Canaan Pittsfield to Albans, to Dexter There seems a enthusiasm in the people along upon the route and the survey will undoubtedly be continued through to this city The Mass Meeting at Corinth on Thursday last was for the purpose of promoting this object

☞ Mr Barber has for sale a new article, a case for the snug keeping and preservation of pamphlets They are of different sizes and very convenient

Bucksport, Feb. 12.

Dear Sir —We find your daily paper for which we subscribed last fall, a valuable paper, putting us in possession of intelligence two days in advance of the Boston papers, but we regret that it has as yet never come to hand on Monday, and we would ask if you cannot so arrange at the Post Office in your city as to get it in seasonably for the Mail which leaves your city at 8 o clock A M If you can put it through to us Mondays you will much oblige

Your ob't servant, ——

We should be very glad to accommodate the distant subscribers to our Daily paper, in giving them an early paper on Monday, but this we cannot do without working upon the Sabbath, to which we can not consent, since every year s experience teacheseus of the absolute necessity of the intervention of the Sabbath for man's well being, progress and happiness.

EDITOR

LAND TITLES IN DESERET —A correspondent of the Ohio Statesman says that the land system at the Salt Lake City is based upon the free soil system. The land is not allowed to be sold Every man can have as much as he can occupy, by paying for the survey and the recording The record constitutes the title of occupancy, and that is all the title he has — Thus and has improvement he cannot sell—nothing more

☞ Mr Welmore has given notice of intention to return all moneys in his possession into the Treasury He has already paid a little over $92,000 and proposes to settle in all his accounts and vouchers in the department for final audit, giving security that the balance shall be forthcoming when the account is presented Of course this cannot be otherwise than satisfactory This is rather throwing himself upon the generosity of the Government, hoping that his claims will be admitted to some extent

The New York Tribune says, that the widow of the unfortunate Messenhauser, who was commander at Vienna during the insurrection there, and who was shot by Windeschgratz after its capitulation, has arrived in New York with her three children

☞ The Oxford Democrat since its late corching by fire, appears upon new type in enlarged form and makes a very fine appearance its political doctrines & the only matters about which are not first rate

A bill has passed the Senate of Ohio, authorizing the Commissioners of the several counties to subscribe for one copy each of the leading newspapers of each political party printed in the county, and to have the same bound and preserved in the office of the Recorder

Stockholders of all the banks in New York are now individually responsible to the amount of their respective shares, and in addition to the shares themselves, for all debts and liabilities contracted by them,

Mr Wm H Brower, one of the owners of the steamer Rhode Island, is confident that she is not lost, and that she was deserted without sufficient cause by those who were picked up in the boat.

Two young ladies whose names are given as Miss Almira Frair, and Miss Mary Ward, have become regular students in the Medical Department of the Memphis Institute

☞ A call has been issued for a public meeting in New York to respond to Mr Clay's compromise resolutions.

☞ The Penobscot river is now open nearly up to Hampden corner

☞ The Washington correspondent of the New ark Advertiser says

As a sign of the times I notice in the *National Intelligencer* of this morning extracts from a quarter of a hundred *Soldier's* papers, strongly yet firmly sustaining the position of the President in his California message and expressing the determination at all hazards to have down the public heart beats Just couple with this the fact that one printing house alone, has had orders for nearly *ten hundred reams* of Mr Clay's great speech, and the demand still increasing Another establishment has issued a larger edition, which is being circulated freely among the people, and is bought up rapidly And let it be noted, too, that a large share of these purchasers are Democrats in principle but supporters of the administration

Does this look like desiring the Union? Dissolve the Union! Tell it not in Gath! Publish it not in the streets of Ashkelon!

Mr Webster is preparing to address his countrymen on the 'Evils of the Times' From what I can learn, it will be one of the greatest speeches Mr Webster ever made It will be well worth coming from New Jersey to hear such a man on such a theme."

GRATUITOUS PRINTING The Salem Gazette has the following sensible paragraph on the subject

"There is no such thing as doing anything 'gratuitously' in a printing Office Somebody must pay for every thing that is done Not a line can be set that does not cost money for setting Either the printer must pay the whole, or the advertiser must pay his share The only question to be asked by the publisher who is to pay the money for the labor, what ground has this party or individual to require one to pay for the promotion of its or his object"

We saw a beautiful specimen of the products of the soil of Maine, in the shape of a magnificent pine spar hauled into town, on Thursday It was cut in the South part of the town, on land owned by H O Alden Esq It measured 83 feet 33 inches in length, 21 feet in circumference and 7 feet in diameter. It was estimated to contain 6 1-2 M feet, board measure and was hauled by 14 yokes of oxen Is intended for a mast to a large ship now building at Damariscotta and was furnished by Leonard Cooper Esq of Montville, who gets $250 for it.—Belfast Signal

"And o'en the rude Bucket that hung in the Well" —A resident of Chesterborough, in digging a well on the west side of Chester creek, near the site of the house of Robert Wade, visited by William Penn, on his first landing in 1682, came directly on the well which supplied water. About six inches below the surface, was found the old well neatly walled and on clearing it out, the well-bucket was found at the bottom, It had been closed a hundred years

A HINT TO MOTHERS —Rising early is a habit of high importance to the children, and in forming it, there is far greater facility than in other cases, They usually retire to bed in time before their parents, and at day light or at least sunrise, they are generally awake and anxious to rise, Many of them are actually bred up with difficulty to the habit of taking a morning nap, which, when once formed, generally prevails through life

Great Fire in Gardiner.

FOUNTAIN OFFICE, Gardiner,
Wednesday morning, Feb 20.

A fire broke out this morning about half past 4 o'clock, on Water st It is supposed that it commenced in a building occupied as a tailor shop, by L Lowell When discovered the shop was all on fire The fire spread from this shop each way, through a block of wooden buildings on the East side of Water st, consuming the whole block, it being about 200 feet long

The sufferers are, J. N Brown, barber, John Brown, confectioner, whose family lived in the same building, L Lowell, J Decker, and O Dekly, tailors, G W Batchelder, law office, whose loss of valuable papers no doubt was heavy Miss Clark, millinery, Mr Ring, butcher, Mr Atwood, bookseller, Kelley & Rowell, shoe store, E Jackson, tanman and stove dealer, H. Sager, harness-maker, McKenney, goldsmith, and M H Lord, painter

John Brown and J N Brown are the greatest sufferers, as they had not only their place of business burned, but all their household furniture, and their families turned out o doors

The burned block joined Palmer & Williamson's block, in which we have our office and the office of the G Scribe, but through the vigilance of the firemen we are safe though the building was several times on fire, and the west end of the block sustained considerable damage Our type was mostly carried out, and the matter of the Quarterly Journal of the Jan. Session of the G Division of this State, was knocked into pi, besides some other matter R Williamson, tailor, in this block, has sustained much damage

The fire was kept from the west side of the street with great difficulty The dwelling house of J. D Gardiner, and a building adjoining the same owned by him, were much injured. A clothing store in this building has suffered loss The furniture of the Cobbossee House was carried out and much injured We shall give further particulars when our paper goes to press, which may be delayed a day or two by the confusion in our office. Our firemen deserve great praise

Where there was so much to praise in the conduct of our gallant firemen it seems impossible to do full justice to all the parties But we cannot pass over the following individuals who seemed to forget their own personal safety. They stood and worked until their clothes were literally burned off of them We give the names of a few, and we hope our friends will furnish us with the names of others that have obtained for themselves such well deserved praise. James Harbox, Jr, 3d Director, Thomson Lewis, boseman, George Harbox, Horace Shaw, H B Bradstreet, L D Cook, Geo A McCurdy Also Mr F. Foster, fire-ward — We are informed that the last named gentleman, young McCurdy and F Crowell, were the means of saving our office We never saw men work more earnestly than our fellow citizens of Gardiner We could not help thinking that Mr Brown spoke the truth when he said, "We live in a Christian community"

The Hecla Company from Pittston, are deserving of the highest praise for their prompt and noble exertions.

Thanks to the 'Tiger' Company of Hallowell for their promptness in answering our call

Beautiful Extract.

The following passage from Horace Mann's new work, to which we have refered, is very eloquent, truthful and beautiful. We have always spoken of Mann, as the writer of the best and purest English among us.

Look at the provision which the bounty of God has made for another group of the human faculties,—for the esthetic or beauty loving part of our nature We might have eaten and drank and worked in a drab colored universe as well as in this scene of ever-varying splendor; in a world of monotone and droning as well as in the midst of

"Ten thousand harps that tune
Angelic harmonies,"

in a world of geometric triangles and polygons instead of fields of waving grain and bowers of wreathing vines and all the graceful lines of beauty and of art Yet what a prodigality of creations to gratify the sentiment of beauty in the mind of man!—the many colored flowers of the green earth, and the many colored stars of the cerulean sky, the tints of the living foliage of summer, and the more gorgeous hues of the dying foliage of autumn,—that season when nature weaves a mantle of more than Tyrian splendor, and spreads it like a garment over valley and hill, the fervid and ever changing effulgence of the sun, and the gentler glories of his setting hour, the stationary rainbow and the shooting auroras, the glittering colors of bird and insect and shell, all nature's symmetry of proportion, whether in the tiny walls of the coral insect's sepulcher, or in the honey bee's comb, or in the basaltic pillars that uphold the mountains, the rigid shafts of the oak, and the vine that gracefully festoons it, but I forbear, for who shall catalogue the master-pieces in nature's galleries of beauty,—all marvels, all fashioned from archetypes of infinite excellence in the Divine Mind? Surely, He who created the fragrance and flowers and music of Paradise, He who has commanded a thousand sleepless attendants, each with a horn of plenty in its hand, to stand around even the disobedient children of men, and minister to their luxury and their adornment, was no anchorite Surely, he who created all colors, and has mingled them together in the petals of flowers, in the armature of insects, and in the plumage of birds, and has blended lily and rose in the cheek of youth, He who has strewed the bottom of the ocean with pearls, and sowed jasper and amethyst and chrysolite among the rocks, was no contemner of adornment. He prepared this wondrous frame of things not only to excite the exultation of sense and of sentiment, but to inspire the sublime contemplations of the intellect, and to make our devotions impassioned by making their object so admirable And with what nice adaptions and adjustments man is placed! Behold the marvellous reach and energy with which the narrow organs of our narrow bodies extend their cognizance and display their power! The nervous filaments of the senses are finer than a spider's thread. Yet they are the avenues of communication between the world without and the world within They spread themselves out over a little space at the roots of the tongue and all the savors of nature become tributaries to our pleasure. They unfold themselves over a little space in the olfactory organs, and we catch the perfumes of all the zones They are rambling over a little space in the hollow of the ear, and the myriad voices of nature, from the shrill insect to the melliluous song-bird to the organ-tones of heaven's cathedral,—the thunder, the cataract, and the ocean,—become our orchestra. They have a spot in the interior of the eye so small that the tip of the finger may cover it, whose the earth and the heavens, to the remotest constellations that seem to glitter feebly on the confines of space, are painted, quick as thought, in the chambers of the brain By these senses we hold connexion with all external things, as though millions of telegraphic wires were stretched from every outward object, and came in converging lines to find their focus in our organs, and through these inlets to pour their pictures their odors, and their songs into the all-capacious brain Nay better than this for we have the picture, the perfume and the music, without the encumbrance of the wires

But a higher and holier world than the world of Ideas, or the world of Beauty, lies around us, and we find ourselves endued with susceptibilities which affiliate to us all its purity and perfectness The laws of nature are sublime, but there is a moral sublimity before which the highest intelligence must kneel and adore The laws by which the winds blow, and the tides of the ocean, like a vast clepsydra, measures, with inimitable exactness, the hours of ever-flowing time; the laws by which the planets roll, and the sun vivifies and paints, the laws which preside over the subtle combination of chemistry, and the amazing velocities of electricity; the laws of germination and production in the vegetable and animal worlds all these, radiant with external beauty as they are, and exalted above all the subjects of sense, still wane and pale before the Moral Glories that apparel the universe in their celestial light The heart can put on charms, which no beauty of known things, nor imagination of the unknown, can aspire to emulate Virtue shines in native colors, purer and brighter than pearl, or diamond, or prism, can reflect Arabian gardens in their bloom can exhale no such sweetness as charity diffuses Beneficence is godlike, and he who does most good to his fellow man is the Master of Masters, and has learned the Art of arts. Enrich and embellish the universe as you will, it is only a fit temple for the heart that loves truth with a supreme love. Inanimate vastness excites wonder,—knowledge kindles admiration, but love enrapture the soul. Scientific truth is marvellous, but moral truth is divine, and whoever breathes its air and walks by its light has found the lost paradise For him a new heaven and a new earth have already been created. His home is the sanctuary of God, the Holy of Holies.

To Californians.

Among the numerous Cahfornia adventurers it will not perhaps be uninteresting to know the quickest, cheapest and best route to the gold regions There are now running permanently the following first class steamers between New York and Chagres, viz., the Empire City and Crescent City, of Howard & Sons' Line, the Ohio and Georgia of M O. Roberts' Line, the Cherokee and Philadelphia of Howland & Aspinwall s Line The whole of which are substantial and fast steamers, and commanded by men of well known ability

The price of passage by the Howard line is $65 in the steerage, and $90 to $125 in the cabins The steerage includes mattresses on board The prices by the Roberts line are, state room berth, $100, standee berth, $90, steerage, $50—also including bedding and board. By the Aspinwall line, after saloon $125, forward saloon, $100, lower cabin, $90 The prices by the Law line are lower than by the others, because those steamers do not go direct,

Cabin passengers are allowed eight, and steerage passengers six cubic feet of baggage, without charge Freight is taken to some extent, at 70 cts per foot, but the difficulty of getting it across the Isthmus is very great The cost is about 25 cts per lb

The passage across is made in two or three days, at a cost of about $25, by the steamer Orus or by canoes to Gorgona or Cruces, and thence on foot, or by mules and horses to Panama, at which place by hiring a room a person can live for about $4 or $5 per week by boarding at a restaurant. On the Pacific the following steamers are running, and the balance are to be there soon. The Oregon, Panama, California, Tennessee, Unicorn and Carolina, of Howland & Aspinwall s line, Sarah Sands and New Orleans of Howard & Son's line, Columbus and Isthmus, of M O Robert s line, added to these there are two more soon to be sent round the Horn to join Howard & Son's line

The prices on the Pacific are the same in all the above steamers first cabin $300, second cabin or steerage, $150 Passengers are allowed 150 cubic feet of baggage Freight in the Howard line is taken at $2 per foot, and probably in the others at the same price.

The Aspinwall steamers are full on the Pacific side, up to May The Howard steamers are also full to May, and it is doubtful if a steam passage could be obtained from Panama until after April. We believe that sailing vessels are running between Panama and San Francisco, and passage can be obtained from $150 to $200.

Those who prefer a voyage around the Horn can find at any time fast and substantial vessels at this port about to sail for San Francisco The time of the voyage ranges from five to six months, and the price is $100 to $300, according to the accommodations Freight is taken at 65 cents to 70 cents per foot. There are some fifty-two vessels of all sizes, including two steamers, up at this port for California

[N Y Express

Congress.

WASHINGTON, Feb 19

In the Senate, Mr Seward asked that body to define what petitions should, and what should not be received

Mr Douglass submitted a journal of the proceedings of the inhabitants of New Mexico asking for a government

Mr King presented a petition for the reduction of postage, which he opposed on account of the sparseness of the population at the south.

Mr Corwin's resolution, asking information in regard to the expenses of running the Mexican boundary line, were adopted

Mr Dodge, of Iowa, reported a bill granting land to Pacific Railroad Company.

Mr Clay's resolutions were taken up Mr Downes concluded his argument The resolutions were then postponed till Thursday The Senate went into executive session, and then adjourned.

In the House, Mr Littlefield asked leave to introduce a bill to prohibit the sale of intoxicating drinks in the public buildings and grounds in Washington Objected to

On motion of Mr Bailey, the House went into Committee of the Whole on the President's annual message Mr Venable took the floor, and made a violent speech, in which he charged the whole responsibility of disunion on the North, and advocated resistance to the death.

Mr Cambel followed in a forcible and eloquent speech He said that Southerners had invoked the spirit of Washington, and he exhibited autographs of Washington and other Southern patriots, pledging themselves to against slavery, he showed that one object in founding the republic was to prevent its extension, and he completely answered several Southern arguments During his speech Mr C commanded universal attention.

Mr McLanathan followed, and said the Union was safe. If the President or Congress could not preserve it twenty millions of freemen could.

Mr Bowlin next took the floor, when the committee rose and the House adjourned.

RHODE ISLAND.—The General Assembly of Rhode Island, after the unusually protracted session of six weeks, adjourned on Saturday The license law was amended so as to require complainants for its violation to give security for costs of prosecution An act was passed for the establishment of a reform school Resolutions against slavery, against liquor rations and flogging in the Navy, and in favor of a National Bureau of Agricultural ture, were passed

Needles were first made in London by a negro from Spain, in the reign of Mary, but he dying without teaching the art, it was lost till 1560, when it was taught by Elias, Grorose, a German.

Dr Anderson says he knew a man to become very rich by being great in little things, and that this man always made it a point to see that his cattle, particularly his milch cows, had a constant supply of fresh water

CALIFORNIA DEFINITIONS,—Dig nity is said to mean, getting gold—in-dig nity not getting it—dust to dust, properly interpreted, is equivalent to "man, go and dig"

Never give up.

'Never give up'—'tis the secret of glory,
Nothing so wise can philosophy preach,
Think on the names that are famous in story,
'Never give up' is the lesson they teach

How have men compass'd immortal achievements?
How have they moulded the world to their will?
'Tis that midst dangers and woes and bereavements
'Never give up,' was their principle still

'Never give up,' though o'erladen with sorrow
Shake not the yoke—'twill more bitter y gall,
Never give up,' for here cometh a morrow
'When evils deplored shall no longer enthrall

Never give up '—bear your fate with serenity'
Crouch not ignob y like slaves in the dust,
Life's a rough passage to realms of amenity,
Dark is the journey, but travel we must

Never give up! It can last but a season
Will you—because a cloud burst on your way—
Basely surrender your manhood and reason,
Weeping for griefs that must end in a day!

That though the tempest around you be raving?
Soon you'll have emptied life's rancorous cup,
Soundly you'll sleep where the willows are waving—
Thunder won t waken you—'Never give up'

Never give up'—it were impious to dream of it!
Keen though your anguish be never forget,
That there are fortunes, (or raptures that gleam of it')
Bright and immortal in store for you yet

Ere the night fall—if by virtue a meritor
May you not mourner, in Paradise sit,
Compter of angels and heaven's inheritor
Think of your destiny—Never give up!

INFLUENZA, COUGHS, &C.

Those who are troubled with *Coughs, Colds, Influenza*, or any Lung Complaint would do well to try *Dr Rogers's Syrup of Liverwort Tar*, and *Canchalagua*, which breaks up the most distressing Cough in a few hours Should it fail to do so, the money will be returned *** See advertisement in another column

CLERGYMEN.

Dr S F Townsend has had the pleasure of receiving a great number of certificates from Ministers of all Denominations who have either used it or witnessed its effects Please read them and be convinced there is no remedy like this.

Methodist Testimony.

ALBANY, January 27, 1847

Dr S F. TOWNSEND—Sir I take much pleasure in stating for the benefit of those whom it may concern, that my son, who is about two years of age was afflicted with bad sores on the face and body, attended with general debility We gave him less than one fourth of a bottle of your Extract of Sarsaparilla, it speedily cured him and restored his health, and I cheerfully recommend it to the attention of those who have children similarly situated COR I HERMANCE, 127 Beaver st

Cornelius I Hermance is an old respectable member of the Dutch Reformed church, of which I am pastor I have confidence to believe that the above statement may be relied on H STARKS

A NEW ARTICLE.

BLISS'S COMPOUND COD LIVER OIL CANDY

For the Cure of Coughs, Colds, Influenza, Hoarseness, Bronchitis, Catarrah, Tickling in the Throat, and all Lung and Bronchial Affections

THE WONDERFUL curative powers of Cod Liver Oil in all cases of Cough, Colds and Consumption have been clearly demonstrated by the most experienced physicians in Europe and America Its peculiar virtues are already too well known to need any description here. The nausea and disgust which many people experience in swallowing the Oil in its usual form of administration is entirely obviated by the discovery of the mode of preparing it in the form of a most AGREEABLE CANDY, possessing and preserving all the medicinal qualities of the Pure Cod Liver Oil without its nauseous and repulsive taste The powerful curative principle of the Oil being thus retained, and continued with other healing and harmless ingredients, justly celebrated for their efficacy in the above mentioned complaints, forms one of the most soothing Cough Remedies, and remedial agents for stayling the advance of Consumption that has ever been discovered *The Candy* needs but a fair trial to convince the skeptical of its excellence Public speakers and vocalists will find it an excellent article for removing obstructions from the throat and clearing the voice N B—Be particular and enquire for 'BLISS'S Cod Liver Oil Candy," and observe the signature of the proprietor on each package

Prepared and sold by H K BLISS, Druggist, sole Proprietor, Springfield, Mass

Cards marked to order will positively send despatch

Terms For 12 Lessons—Gentlemen $1 50 Ladies $1 00 Payment in advance dtu 1 nov 2

DIED:

At Poughkeepsie, N Y., on Sept. 1849, of cholera James Raymond Mr Raymond came to Gardiner, about six or seven years ago a stranger—said he was the son of Thomas Raymond of the town of Ripley, in the State of Maine As it is possible this may soon reach there we cannot hear the fate of his son except through the new papers, we believe it would be an act of kindness to notice his demise in the Bangor papers, that he may have a chance to learn his fate

The last Gardiner, Mr Raymond has lived in Orient—was respectable, moral and industrious, and a member of the church

To Mill Owners

GENIUS has long been at work to invent some way to save the vast amount of labor in filing saws which it requires to keep gang and mill saws in order Such a Machine has been invented by D Clark of Lowell Mass for which he has received a Patent It has been in perfect operation to all who have used it A sample may be seen at the City Mills North Bangor (so called) or at C & R HOLYOKE'S Store, Brewer

It is recommended to all who wish to save themselves of such a saving

See the following certificates

J DYER Agent for Maine

Brower, Jan 19, 1850

LOWELL May 23 1

To whom it may concern —This certifies that I have used in my Mill during the two past years one of Clarke's Patent Filing Machines during which time I have realized a saving of labor of from thirty to fifty per cent besides the saw made in using files which has been equal to that labor, and from my experience in using said machine I can cheerfully recommend it as a saving one worthy of the patronage of Mill owners generally WM FISK

BANGOR June 1st 1

To whom it may concern —This certifies that I used, last season two, and have now in operation at the City Mills (so called at North Bangor) one of Clark's Patent Filing Machines and have found them to be a saving in labor and files and have given perfect satisfaction, cheerfully recommend them as worthy of the patronage of Mill owners generally JOHN FISK

Having used during the past year, one of Clarke's Patent Filing Machines, I fully concur in the above statements RUFUS DWINEL

CAUTION.

ABOUT four years ago, a boy named William Henry Prichard, came into the employ of A. NOYES & CO., for the purpose of learning the trade of a Tinner, and an agreement was made by which he was to remain until he was twenty-one years of age. Having had the benefit of instruction in the trade until about two months since, he left us without occasion on our part. We hereby forbid all persons trusting him on our account, as we shall pay no debts of his contracting; persons employing him will do so at their own risk.—Prichard is about 18 years of age, with black hair, black eyes, and florid complexion.

LINCOLN STAGE HOUSE!

THIS House has been by the subscriber recently fitted up in a convenient and commodious manner for the accommodation of the public by the repair and addition of

The subscribers flatter themselves that they will be able to provide as spacious and convenient apartments as may be desired—the recent improvements having had special reference to that object

Private families, who may wish to spend a few days or weeks in this village, will be supplied accommodated

The House has, also, been elegantly furnished throughout with new furniture, and no pains will be spared by the subscribers to furnish their guests with everything for their comfort and convenience.

Connected with the House is a large and commodious Stable, which has also been improved and repaired where may always be found an experienced, faithful Ostler Horses and carriages furnished for all who may want

The subscribers tender their services to the public, and intend by keeping a first rate House, and attending faithfully to their business, to merit a liberal share of patronage

JAMESON & HARTWELL.

Lincoln, Me., Nov 26, 1849 dlm&w3m

HALLOWELL HOUSE,

HALLOWELL, MAINE

THE subscriber respectfully announces to his friends and the public that he has leased this well known Hotel, and has made many important improvements and repairs.

The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country.

Gentlemen with their families and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention, to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance

Hallowell March, 1849 BENJ HODGES

COLUMBIAN UNIVERSAL STRENGTHENING PLASTER.

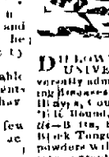
White's Hair Restorative:

A PURELY VEGETABLE COMPOUND

For Restoring, Hair Force, Ointment, Softening, and Dressing THE HAIR



THIS elegant preparation is fast taking the place of all other articles in use for restoring and dressing the Hair It prevents the Hair from falling off, promotes its growth, removes dandruff, and restores the natural and luxuriant growth of the Hair in all cases of baldness It also removes pain and heat in the head, and as a cooling remedy for all diseases of the scalp it gives the Hair a brilliant, glossy lustre, a silky texture, and a healthy vigorous appearance. No Lady's toilet set be complete without this indispensable article.

RECOMMENDATION

(Copy)

Certificate of Dr PERRY Portsmouth, N H

PORTSMOUTH, Sept 29, 1849.

Mr J P. MORSE, Agent for "White's Hair Restorative"

Dear Sir—I deem it my duty to state some facts respecting the unusual value of White's Hair Restorative Several years ago, after a severe fit of sickness my wife lost all of her hair, the scalp appeared dried and dead, the hair grew out thin, and was very weak. About a year ago, by another fit of sickness, she lost all her hair Once and time and for a long time there was appearance of it coming on the scalp After various applications I was induced to try the above mentioned Restorative, and before the first few bottles her hair has grown out a thick, soft luxuriant and dark natural color as ever. Furthermore, for a long time I have been afflicted with neuralgia and other pains in my head, which I have found it impossible to remove, but I have over them, I can truthfully say, by the use of it to all who are afflicted as above, as to heat am all I have ever used.

Most respectfully yours &c

J A PERRY, M. D.

IMPORTANT

TO OWNERS OF HORSES AND CATTLE

DR TOWNSEND'S CELEBRATED HEAVE POWDER AND LIVER AND STOMACH MEDICINE, is universally admitted to be sure specific in the following diseases in HORSES and CATTLE *In Horses*—Heaves, Coughs, Colds, Glanders, Fever Distemper, Hide Bound, Worms, Botts, Scabby and Mangy, *In Cattle*—Hoven, Hoose, Loss of Cud, Hove Distemper, Black Tongue, Cattle Laughs, &c On first three powders will be found to be the best motivating medicine extant for all both versons animals, and they operate directly on the liver and stomach, and in this manner cattle are shorter stopped, and health then be restored to a sound and healthy condition. Indeed his medicines are so invaluable for all the delicate diseases to which we horses are subject.

It purifies the whole system, renews formadently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for found of such a disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon a child birth ever discovered. It strengthens both the mother and child, preventing pain and disease, and enriches the blood—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps, Swelling of the Limbs, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhages, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate can use it most successfully Very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy recovery.

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and prevent perspiration, which, when nature is not thwarted by disease or powder, or the skin is flamed by the alkalies used in soaps, beautifies the complexion in the human face divine, as well as in the garden of flowers. Many a lovely and virtuous woman flowers. A fresh, active and healthy circulation of the fluids or the cleansing of the pure, rich blood to the extremities, is that which puts a fine countenance in the most exquisite beauty It is that, which imparts to the delicate smile of the ladies and flushes of loveliness that all admire, but none can describe. This beauty is the offspring of *nature*—not of *powder or rouge* If there is not a free and healthy circulation, there is no beauty If the lady is pale, drives away, if she pants and uses cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion with the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complex ons, they should use Dr Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied, are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females*, and have copied our bills and circulars which refer to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females recommended them, although previously they did not A number of those Mixtures Pills, &c, are injurious to females, as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate disease of the blood. Other persons are daily doing the same unprecedented

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with that disease as they have taken only four bottles, it took the sores, for which I feel myself under great obligations Yours respectfully,

ISAAC W CHAIN, 10th Wooster st.

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases of the Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

H. P. GILLING, M. D.
R. P. HORRIGGS, M. D.
P. S. ELMENDORF, M. D.

Albany, April 1, 1846.

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Ext ucts, Elixirs, Bitters, Extracts of Yellow Dock Ext ucts, Elixirs, Bitters, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided
